## A Subscriber Talks of The Judicial Situation.

A subscriber writes as follows: There is no political conscience. It has been urged that those who yet favor a primary election should have raised their objection to the action of the judicial committee before it met. This is puerile. It is the perfection of nonsense. Analogous to this would be to file suit for damages against a railroad before damage has been done, or to indict a man for burglary before the act. It was impossible to foretell or to prejudge the action of the committee. It was, however, very reasonable to suppose that it would order a primary election, since it was known that a large majority of the people and the candidates wanted and asked for a primary election. This unwarranted action, by which the will of the people was ignored, should be rescinded for the good of the party and not the interest of any candidate. Such conduct cost the party 25,000 votes in the State, and if continued, it will wreck the party. The people are asserting their rights. The day of the politician is past and the voters are ready to prove that they must be ignored no more.

There are many good citizens who intend to leave no stone unturned to defeat the nomination of the candidate in whose interest the convention was called. It is urged that the action of the committee will justify a severe course, since the Mosaic law: "An eye for an eye and a tooth for a tooth" is still deeply imbedded in human nature. Even under the Christian dispensation we are permitted to do that which would otherwise be a crime to prevent the commission of an offense. To illustrate: We are commanded not to kill, and yet if a burglar attempts to enter your house, you are excused for taking his life. It is claimed that those who would resort to any means in convention to defeat the party favoring it, would be regarded as public benefactors; as the defenders of the rights and the liberties of the people and the founders and promoters of a school of political reform, in which it will be taught that the will of the people must be respected. Look out for the majority and the good of the party. SUBSCRIBER.

There are many good citizens who intend to leave no stone unturned to defeat the nomination of the candidate in whose interest the convention was called. It is urged that the action of the committee will justify a severe course, since the Mosaic law: "An eye for an eye and a tooth for a tooth" is still deeply imbedded in human nature. Even under the Christian dispensation we are permitted to do that which would otherwise be a crime to prevent the commission of an offense. To illustrate: We are commanded not to kill, and yet if a burglar attempts to enter your house, you are excused for taking his life. It is claimed that those who would resort to any means in convention to defeat the party favoring it, would be regarded as public benefactors; as the defenders of the rights and the liberties of the people and the founders and promoters of a school of political reform, in which it will be taught that the will of the people must be respected. # THE INTERIOR JOURNAL

E. C. WALTON.

H. H. HENNINGER

Of Wayne County, is a candidate for State Treasurer, subject to the action of the Democratic party.

ROBERT HARDING,

of Danville, is a candidate for Circuit Judge, subject to the action of the Democratic party.

CHARLES A. HARDIN,

of Mercer, is a candidate for Commonwealth's Attorney in this, the 13th judicial district, subject to the action of the democratic party.

For Congress,

G. G. GILBERT

Of Shelby.

"BROTHER ED WALTON, of the INTERIOR JOURNAL, finds fault with the editor of the News for espousing the cause of Hon. Robert Harding, in the race for circuit judge," says "Prof." Lillard in the News. You were never more mistaken. We have no earthly objection to your support of your county man, but we are sorry of your inconsistency. "Be brave and fearless and loyal to the great common people," you print each issue and you are trying to nominate a man who had too much conscience to vote for the great and good man who uttered those grand words just before he passed into the great beyond. Consistency is a jewel that "Prof." Lillard hasn't yet heard of. The "professor" charges that we kicked against the platform of 1896 and 1900. Bless your soul "professor," we have never thought of such a thing as kicking on platforms. In our feeble way we were trying to help elect Mr. Bryan on those platforms while you were making pills. We had the honor of being treasurer of the campaign committee in 1896. Does that cause you to think we were a kicker? The "professor" pretends to think we omitted the publication of his juggling of figures because it would convince some of our readers that a convention is a fairer way than a primary to nominate candidates for judge and Commonwealth's attorney. Wrong again. We didn't deem the figures worthy of reproduction. In fact to us of the uninitiated they were not altogether clear. The "professor" might send along a diagram and help matters. "I have seen much that would indicate the sentiment that defeated Mr. Bryan, the greatest champion the people ever had in this nation, in the ring of the voice that speaks to the people from Stanford." We deny the allegation and "cefy the allegator." No paper worked harder than did this in its efforts to elect Hon. Wm. Jennings Bryan in both of his races. The INTERIOR JOURNAL always supports democratic nominees with its might and main and if "Prof." Lillard is ignorant of that fact we invite him to an examination of its files. But why argue? The "professor" knows we are a democrat and we know he is one, and knowing this the wonder to us is how the d—uce he can be so hot for a man who only a year or so ago helped to defeat the lamented Goebel by refusing to vote for him. We say again that consistency is a virtue that the "professor" does not possess.

THE republicans of the Seventh district came near not having a candidate for Congress, says the Lexington Democrat. They appointed Saturday to hold county conventions to name delegates to a district convention to be held at Lexington Tuesday to nominate a candidate. Ignorant or forgetting the law making it necessary to file notice of candidacy at Frankfort 30 days before the election, there was consternation in camp when a legal brother let the light in on the situation. Then the telegraph was kept hot till an agreement with the counties had been made to nominate Mr. Cannon and his name was at once certified to the proper authorities. All this, however, was a waste of money and energy. South Trimble's race will be a walk over.

ACCORDING to Senators Depew, Foraker, Hanna and other American orators, the trusts are beautiful institutions, ordained especially for showering blessings and benefits on the American people in spite of themselves. On the other hand, President Roosevelt, Representative Littlefield and some more republicans insist that the dangerous power of the trusts must be curbed even if an amendment to the constitution of the United States is necessary to that end. In this conflict whom shall the uninitiated believe?

It gives us that tired feeling to read in a paper an apology for a dearth of editorial or local matter because the "advertiser took so much space" and then find a dozen or so columns of plate matter. No use in lying about the matter. Just as well say that news is scarce or that the editor is tired, sick or lazy, which ever case it may be.

BEAR in mind that the election is not far off and that it is very important that Hon. Geo. G. Gilbert be returned to Congress. There will be no trouble in electing him if democrats will only do their duty and this they must do. It would be a calamity to lose so excellent a representative as Mr. Gilbert is.

IN Philadelphia a law prevails that should be in force in every city. A man must show a receipt for his poll tax before he can exercise the right of suffrage. The Quay machine in the Quaker City has just put the money of 80,000 polls in the treasury that would not have gone there had it not needed the votes.

THE Louisville Horse Show was a success in every particular. The splendid exhibition of the equine and the big crowds make certain the building of a \$250,000 coliseum for Louisville's future shows.

TAMMANY HALL has nominated William R. Hearst for Congress and it is a good bet that the great publisher will be a winner. He's got the rocks and money talks in elections.

## POLITICAL.

Bird S. Coler, democratic nominee for governor of New York, is only 33. It is probable that Gerald T. Finn, of Franklin, will be a candidate for attorney general.

J. P. Harrison, democratic nominee for Congress in the 11th, opened his campaign at Albany yesterday.

Judge T. Z. Morrow has been given a splendid indorsement for his services as circuit judge by the 20 lawyers of the Williamsburg bar.

Samuel W. McCall, renominated by the republicans in the Eighth Massachusetts Congressional district, in a speech advocated a special session of Congress to remove the duty on coal.

Judge James D. Black, of Barbourville, denies reports that he will not make the race for the democratic nomination for governor, though he has not yet announced his candidacy.

The Hamilton county democratic committee is having trouble in finding a location for Tom L. Johnson's circuit tent in Cincinnati. The committee has been refused permission to pitch the tent in Fountain Square or in Washington Park.

The Massachusetts republican State convention nominated a full State ticket and adopted a platform advocating reciprocity with Cuba. The Dingley tariff bill is praised, but it is said that changes will be made whenever the requirement is of sufficient importance to justify the check to business which inevitably follows any revision of the tariff. The removal of the tariff on products of trusts is opposed.

The Somerset Journal has this to say about Mr. J. P. Harrison, democratic nominee for Congress in the 11th: "He is a leading lawyer of the Monticello bar, with fine promise in his profession. He is a working democrat of purest record, a gentleman in every instinct and purpose. He has never sought or held office and thought himself safe from so unexpected a stroke of political lightning as his nomination at this time to run for Congress is felt to be. His acumen as a pleader and his brilliance as an orator were exhibited in the noted Wayne county election contest cases before Judge Morrow and upon appeal to the higher courts. From that time his friends in this portion of the district marked him as the coming champion of democracy in the district."

His remains were taken to Casey county Saturday and buried after services by Eld. J. Q. Montgomery. Vincent Boreing sold about 7,500 acres of land belonging to the Cumberland Valley Land Co. to Chicago parties for the sum of \$109,102.27. The entire consideration was paid in cash. ROBBED.—At Hopkinsville, burglars entered the residence of Dr. Andrew Sargent and while he and his wife were asleep, secured a watch valued at \$100, a diamond pin valued at \$200, and \$75 in money. The thieves then went through the papers in the doctor's office but found nothing of value. The only mark left was two foot prints just under the window, and they were smoothed over. Dr. Sargent is a brother of Mrs. Annie Lasley, of this place.

FIRE AT TURNERSVILLE.—Walter Field's blacksmith and carriage shop at Turnersville burned about 11 o'clock Saturday night. It is supposed that the building caught from the forge. Loss about \$400 with no insurance. Cash & McClure's store was saved by hard work. The well near the store gave out, but fortunately three barrels of rain water had been saved and with this and blankets the building was prevented from burning. The little shop on the McKinney pike was also saved by good fighting.

WRECK.—Through freight No. 36 which passed here about 11 o'clock Saturday morning, crashed into the rear end of local freight No. 28, which was standing on the track just below Cedar Creek unloading ballast. The engine and several cars of No. 36 were overturned and Engineer Robert Flannagan was slightly injured. No other injuries are reported. The wreck delayed the noon passenger about three hours, the train from Louisville running on to Cedar Creek, where an exchange of baggage and passengers was effected with the mountain train.

If the rebuilding of the hotel recently destroyed by fire at Lancaster is a specimen of its push and enterprise, we fall to see how it will exert any influence toward securing the Southern Railway extension away from Danville.—Danville Courier. THE following from the Louisville Post of Saturday will be unwelcome news to the good people of Lancaster: "A report comes from St. Louis that Henry B. Spencer, general manager of the Louisville-St. Louis lines of the Southern, has decided to build the road on to Danville from Burgin, and not through Garrard county, as the people of Lancaster desired. The people of Lancaster have been putting up a hard fight to have the railroad run their way instead of to Danville, but the indications are that they have lost. The people of Danville are now working to secure the right of way from Burgin to Danville, to present to the Southern and as soon as this is done an official statement is expected from St. Louis."
